Hi,

Im here to show you, new idea, its about to solve problems all round IoT.

Im noticing the use of IoT Tech, with Spy Sonar and MicroWaves monitoration for **abuse, intrusion, distortion, streaming-hacking**, and it is not good things to do with this amazing techonology, IoT, Its comming for help, health, and not for making war, like Psychological Regression, Sick of OCD (Perfection in details), and another **bad** using this technique.

The Regression process (Used in IoT) are very badfully, if you study about, you will see some cases where people go to baby stage and can't come back again. In old times, It is Lobotomy (Drill-Hole in Head) **ABSURD**, and in this generation Its doned using **ACID pharmaceuticals** to destroy brain circuits and make new circuits. And if not enough, **Microwaves** in IoT and IA Tech, Being fried the brain.

So, Im here to propose, ideas, and I have a lot about it, be sure. To Fix, Solve, Help society and Intelligence Agencies with that new tech and the use.

In Japanese culture (This Forum), use welcome gift to come in house of another people, Its make sense with IoT and distortion of **My Head** and **My House**.

Welcome Gift: BEN CAPLAN - Stranger <https://www.youtube.com/watch?v=ynjiInPXT00>

Hope you are all good. Acigo.

To not get out of the rules of the forum.

Let's make a moderation point in this talk. Here, we talking about Abuse of Blockchains, together the abuse of humans, and technology and trying to match solutions, In good way, my personal case (Jesus Christ and Holy Bible).

Im tired of scam-coins, pump-dump of Joker Whales. I really need to get the point to put some concrete in Ethereum ring, its about all my topics.
